## District 220 Alignment – Phase I

**Purpose:** District 220 was realigned to ensure fair travel expectations, balanced leadership workload, and geographically logical Divisions and Areas, while respecting legacy relationships where they did not conflict with geography or comprise totally virtual areas.

**Guiding Principles:** The alignment followed four clear priorities:

1. Geography first
  - a. Real-world travel corridors
  - b. Logical proximity over historical boundaries
2. Governance Second
  - a. Approximately 20-30 clubs per Division from a total of 240 clubs
  - b. Comparable leadership scope across Divisions
3. Legacy Considered (Not Controlling)
  - a. Legacy Divisions informed decisions when geography was neutral
  - b. Legacy never overrode travel logic
4. No area can consist of all virtual clubs

### *District Structure Overview*

- Total Divisions: NINE (9) labeled A-I
- Areas: 5-6 per Division
- Clubs per Division: 20-25 to allow for growth
- Clubs per Area: 4-6 per
  - District Administrative Bylaws Article XI (d) and
  - Protocol 7.0.1
- Division Design: Regionally coherent, not state-bound
- Each Division has a clear geographic identity to the extent possible to support leadership planning and communication

### *Travel Equity & Analysis*

- Club latitude/longitude considered, but not binding
- Conservative “Google-style” road-distance proxies

### *Key Findings*

- Most Divisions average under ~75 miles to the District Center
- Longer maximum distances reflect corridor or urban geography, not design flaws
- No Division is anchored at an extreme edge of the district
- Areas to be realigned to ensure no area is composed of virtual clubs only

### *Some Divisions are Larger/More Elongated*

- Not all geography is compact
- Some divisions follow north-south corridors (e.g., I-270, I-95)

- Span across Virginia, Maryland, and District of Columbia boundaries
- In these cases, above, longer maximum travel is unavoidable and was mitigated by:

- o Keeping typical travel reasonable
- o Supporting hybrid and virtual engagement

*What did not change*

- Club Identities, names, or meeting formats
- Club Numbers
- Club Autonomy
- Member experience at the club level

In the map below, the **green** location pins represent clubs currently in District 36 and the **magenta** location pins represent clubs currently in District 27.

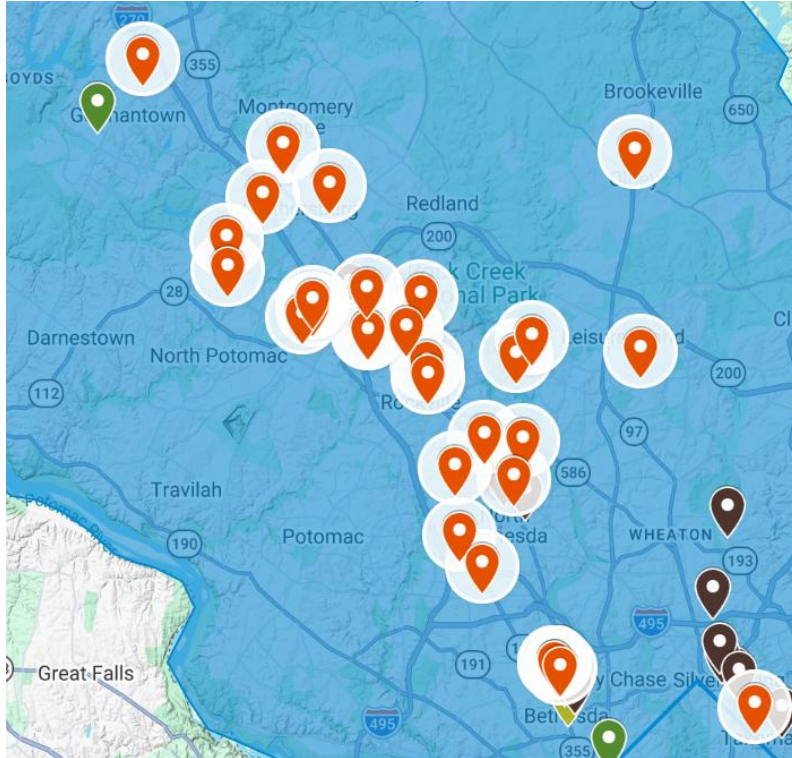

# Proposed D220 Division Alignment

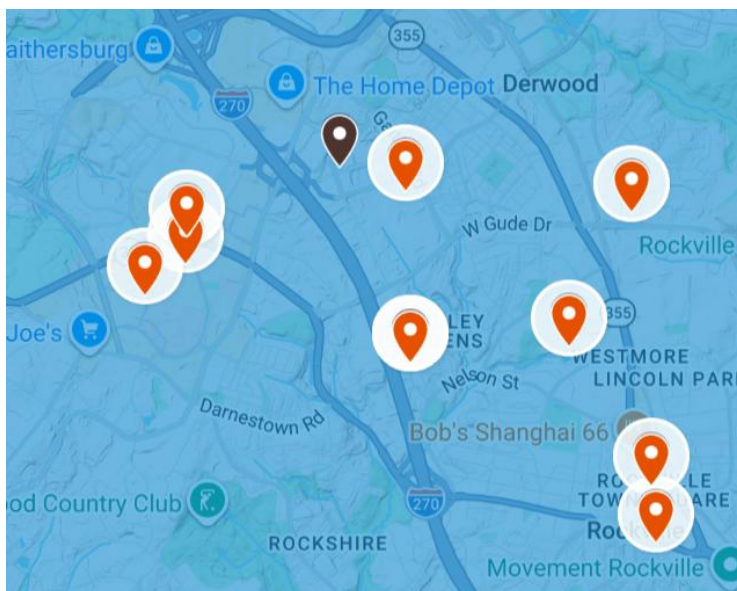

The following map and legend illustrate the proposed alignment utilizing different colors for each division for ease of distinguishing geographical boundaries. As a reminder, some clubs may not fit “perfectly” into a geographical area due to it’s virtual meeting arrangement.
